Communication Design

Relevant Experience

Senior UX Designer
Immuta

Boston, MA
Feb 2022-Present

• Leading the design of a data onboarding initiative, delivering direct value to 76% of Immuta customers and 90% of SaaS customers by streamlining data integration and tech stack processes.
• Designed Domain Policy Enforcement, a new capability within the Immuta Data Security Platform, enabling data owners to implement domain-specific access controls and enhance security.
• Spearheaded integrations with key platforms, including the first native integration with Amazon S3, accelerating data onboarding and simplifying the security framework for users.
• Collaborating closely with Product and Engineering teams to create user-centered solutions, refine prototypes, and integrate feedback.
• Managing the evolution of the design system, establishing atomic-level components to ensure UI consistency, enhance scalability, and accelerate front-end development,
• Recipient of the Humble Intellect Core Values Award (2023) – Honored for embodying the company's core values of humility, open-mindedness, and curiosity while delivering UX solutions aligned with organizational values.

User Experience Associate
Duck Creek Technologies

Boston, MA
Apr 2020-Jan 2022

• Led the growth and scaling of Duck Creek Technologies' design system, establishing design standards and best practices to support 10+ B2B and B2C SaaS applications. This initiative enhanced consistency and efficiency across teams.
• Documented and maintained a flexible, white-labeled design system tailored for insurance software, enabling customers to easily customize and brand the system to fit their unique user flow and branding requirements while ensuring consistency and scalability across applications.
• Redesigned a feature by introducing templates to streamline product configuration and development for insurers, securing stakeholder approval and improving user satisfaction and product adoption.

UX/UI Designer (Contract)
Bend Financial

Boston, MA
Nov 2019-Jan 2020

• Led the design of Bend Financial's user experience to strengthen consumer relationships with their HSAs, making the product more accessible and appealing to a diverse range of healthcare consumers.
• Iterated on key workflows to enhance usability and engagement, improving how users interact with and manage their healthcare savings.
• Envisioned and refined experiences to streamline user interactions, creating solutions that simplify complex healthcare concepts for everyday users.

Volunteer Experience

Cambridge Public Schools Career Labs

Oct 2024-Present

• Volunteer at Career Connected Learning – Collaborated with the program manager to design and enhance curriculum aimed at fostering student engagement, skill development, and career pathway exploration.

BUILD Boston

June 2024-Present

• Volunteer at BUILD – Supported students by assisting at events focused on developing critical skills like communication, collaboration, and problem-solving through real-world business experiences
